Lowell R. Moore

Email: moorelr@vt.edu PhD Candidate Cell: (540) 245-0579

Department of Geosciences Address: 219 Roundhill Drive Virginia Tech

Christiansburg, VA 24073

EDUCATION

Doctor of Philosophy in Geosciences, Virginia Tech 2019 Dissertation title: The volatile contents of melt inclusions and implications for mantle degassing and ocean island evolution Committee Chair: Robert J. Bodnar Master of Science in Geosciences, Virginia Tech 2014

Focus: Geochemistry

Bachelor of Science in Geology, James Madison University 2012

Minor: *Mathematics*

TECHNICAL SKILLS

Electron Probe Microanalysis (EPMA)

Scanning Electron Microscopy (SEM)

Energy-Dispersive X-ray Spectroscopy (EDS)

Raman Spectroscopy

Secondary Ion Mass Spectrometry (SIMS)

Laser Ablation Inductively Coupled Plasma Mass Spectrometry (LA-ICP-MS)

X-ray Fluorescence Spectrometry (XRF)

Polishing and sample preparation – rotary lapping machine, single-grain polishing, thin section cutting and polishing

Design & Prototyping – circuit design, 2D/3D CAD, extrusion 3D printing, Arduino **General computing**

- Windows (batch file scripting, command line interpreter)
- *Linux* (Bash shell scripting, command line interpreter)
- **MacOS**

Statistical computing & Signal processing – R, neuralnet, ggplot2, geoR, regular expressions **Simulation and Modeling** – Python, pandas, numpy, openCV, pygame, tkinter

Data Management and Organization – Excel, Visual Basic for Applications, Microsoft Access **Field Geology** – Water sampling and monitoring, Soils characterization and classification, geological field mapping

EMPLOYMENT EXPERIENCE

Research & Teaching Assistant – *Virginia Tech*

2012 – Present

- Conducted independent, NSF-funded research at an R1 academic institution
- Wrote successful grant proposals for research funding
- Assisted users in analytical facilities

- Taught introductory and intermediate level undergraduate courses
- Mentored undergraduate students working on independent research projects
- Designed and coded software for signal processing and data analysis applications
- Presented scientific results at academic conferences
- Published scientific results in high-impact journals

Produce Vendor – Bells Lane Farm

2010 - 2012

- Managed produce stall at Staunton Augusta Farmers' Market
- Designed and built hoop house cold weather enclosure
- Designed and planted vegetable garden to maximize yield and efficiency
- Maintained and harvested vegetable crop
- Designed and built hydroponic deep-water culture vegetable growing system
- Designed and built ArduinoTM water conductivity measurement system

Projectionist – *The Dixie Theater*

2008 - 2009

- Operated and maintained analog film projection systems
- Received and spliced 16-inch film reels
- Operated concession counter and ticket counter
- Reported daily film earnings to Motion Picture Association of America
- Counted and reported ticket and concessions sales

Farm Hand – *Bells Lane Farm*

2005-2010

- Operated and maintained heavy farm equipment
- Cut, raked, and baled hay
- Herded, handled, and medicated livestock
- Manufactured high-quality compost
- Performed landscaping maintenance tasks

TEACHING EXPERIENCE (Virginia Tech)

Head Teaching Assistant – Physical Geology Lab	2012-2014
Teaching Assistant – Field Observations	2015
Teaching Assistant – Elements of Geology	2015

SERVICE ACTIVITIES

ESL Tutor – Language Volunteers of the New River Valley

2019-Present

- Planned English lessons and provided tutoring services for non-native speakers

Reviewer – Journal of Volcanology & Geothermal Research,

2017-Present

Chemical Geology, Canadian Mineralogist

- Reviewed research articles for publication in academic journals

Workshop contributor – Workshop on Mineral Hosted Melt Inclusions

2017, 2018

- Provided lecture and contributed to summary volume for international

workshop on melt inclusions hosted by Woods Hole Oceanographic	
Institute (Woods Hole, MA)	2017 2010
Workshop contributor – Workshop on carbon in the deep earth	2017, 2018
- Provided lecture and contributed to summary volume for international	
workshop on carbon forms, pathways, and processes in the earth hosted by	У
the Lake Como School (Como, Italy) Planning Committee Chair Conscience Student Research Symmetry	2016-2017
Planning Committee Chair – Geoscience Student Research Symposium - Coordinated fundraising, catering, and logistical activities for student-	2010-2017
organized annual departmental research symposium	
Secondary Standards Provider – VT Fluid Inclusions Lab	2016
- Created and characterized secondary melt inclusion standards for Raman	2010
labs at the Smithsonian Institution and University of Berlin	
Fundraising Chair – Geoscience Student Research Symposium	2015-2016
- Raised funds and provided operating budget for student-organized annual	2018 2010
departmental research symposium	
Lab guide – James Madison University Geology Lab Methods class	2014
- Assisted undergraduate student visitors using the fluid inclusions sample	
preparation lab and vibrational spectroscopy (Raman) lab	
Volcano Demonstration Operator – Virginia Science Festival	2013
- Performed demonstrations using model volcanoes with different eruptive	
styles for a science festival at Virginia Tech attended by over 5000	
students and members of the public	
Volunteer – Pulaski Tornado Recovery Fund	2011-2012
- Participated in community home construction and rebuilding effort led by	
Central United Methodist Church (Staunton VA)	2007 2009
Musician – Stonewall Brigade Band Desformed at community events with the eldest continuously exercting	2007-2008
 Performed at community events with the oldest continuously operating community band in the United States 	
community band in the officed states	
WORKSHOPS ATTENDED	
Analytical method s in Geosciences (AMiGeo) workshop,	
Washington DC, USA	2018
Melt inclusion methods, Woods Hole MA, USA	2017
Carbon Forms and Pathways, Como, Italy	2017
SZO thematic institute, Boise ID, USA	2016
DCO thematic institute, Berkeley CA, USA	2015
Fluid and melt inclusion analytical methods, Antalya, Turkey	2013
Basic Welding, Valley Vocational Technical Center	2010
Basic Carpentry, Valley Vocational Technical Center	2009
Basic Auto Mechanics, Valley Vocational Technical Center	2009
SELECTED RESEARCH EXPERIENCE	

Volatile budget of Haleakala, Maui (Hawaii)
- Processed whole rock samples using rock saw, jaw crusher, alumina

2014-Present

	ball mill, and hand selection for alteration minerals	
_	Analyzed major and trace element composition of whole rock samples	
	using XRF	
	o PANalytical Epsilon 3 XL X-ray Spectrometer, Virginia Tech	
-	Separated olivine grains with Frantz magnetic separator	
-	Analyzed fluid bubbles in melt inclusions using Raman spectroscopy	
	o J-Y Horiba LabRam HR, Virginia Tech	
-	Prepared Indium grain mounts for high-vacuum analyses Analyzed melt inclusion glasses using SIMS	
	Cameca IMS 1280, Woods Hole Oceanographic Institute	
_	Analyzed melt inclusion glasses and host olivine using EPMA	
	o Cameca SXFive, Syracuse University	
-	Analyzed melt inclusions using LA-ICP-MS	
	 Agilent 7500ce ICPMS + Geolas laser ablation system, 	
	Virginia Tech	
-	Wrote and coded software for processing LA-ICP-MS data	
Fracti	onal crystallization modeling of Gale crater samples (Mars)	2016
-	Designed and coded software for automating Monte Carlo simulation of	2010
	alphaMELTs models	
-	Designed and coded software for processing, analyzing, and visualizing	
	model results	
Volati	le budget of Klyuchevsky volcano (Kamchatka)	2016-2018

o Bruker XFlash Compact EDS system, Virginia Tech

Assessment of the role of vapor bubbles in melt inclusions

2012-2014

- Identified and characterized melt inclusion-bearing olivine grains using petrographic methods
- Designed and utilized new analytical protocol for analyzing melt inclusion vapor bubbles using Raman spectroscopy
 - o J-Y Horiba LabRam HR, Virginia Tech
- Derived mass balance method account for fluid contained in melt inclusion fluid bubbles
- Prepared Indium grain mounts for high-vacuum analyses
- Analyzed melt inclusion glasses using SIMS
 - o Cameca IMS 1280, Woods Hole Oceanographic Institute
- Analyzed melt inclusion glasses and host olivine using EPMA
 - o Cameca 6f, Carnegie Institution

Riparian vadose water monitoring

2011-2012

- Installed moisture probes on a Virginia farm
 - o UMS soil suction lysimeter, James Madison University
- Collected vadose water samples from installed probes.
- Measured vadose cation concentrations
 - Atomic Absorption Spectrophotometer, James Madison University
- Measured anion concentrations in vadose water samples
 - o **Dionex Ion Chromatograph**, James Madison University

Virginia soil carbon survey

2010-2011

- Collected soil samples from a Virginia farm.
- Conducted field analysis of soil depth, texture, and structure
- Determined soil organic content by oven drying and loss on ignition.
- Calculated bulk density of soil profile
- Extrapolated baseline volumetric carbon per area of pasture

ACADEMIC AWARDS & HONORS

GSRS "Best in session" outstanding presenter award	2018
Charles E. and Frances P. Sears Summer Scholarship	2016
David R. Wones Research Scholarship	2015
Geological Society of America graduate student research grant: \$1000	2014
Geological Society of America graduate student research grant: \$1200	2015
Dean's List, JMU Department of Science and Mathematics	2012
Sigma Gamma Epsilon, academic honor society in geology	2010
Sigma Alpha Lambda, academic honors fraternity	2010
President's List, Blue Ridge Community College	2007
National Honors Society	2006
